

Welcome to EESA Webinar

Wednesday, 20th April 2022

Synchronism-Check Application Over a Wide-Area Network

Speaker: Brett Hampson

Senior Application Engineer
Schweitzer Engineering Laboratories (SEL)

Brett has worked for more than 35 years in the electrical industry. He obtained his degree in Electrical and Electronic Engineering from the University of Auckland in 1997. Prior to this Brett worked as an electrician in petrochemical, steel production and telecommunications fields. After graduation, Brett moved into a consulting role and has provided power systems services in the USA, UK, Australia and NZ.

Brett began working for SEL in 2000 in the Engineering Services division in the USA. A year or so later he accepted an application engineering role and continues to provide training and technical application support for power systems utilities and projects across the Asia-Pacific region

Upcoming Webinars

- Stand-alone Power System Trials
- Thursday 21st April 3:30 – 5:00 AEST
- Speaker: Sophie Allen

Upcoming Webinars

UNHCR Refugee Solar Power Camps in Jordan,

Tuesday, 26th Apr 2022 | 5:30pm NSW/VIC/ACT/QLD |
5:00pm SA/NT | 4:30pm WA

Speaker: Rob Arcidiacono

Upcoming Webinars

Integrating EVs @ Scale with the Electric Grid

Wed, 27th April 2022 | 11:00 AM - 12:00 PM AEST

Speaker: Dr. Manish Mohanpurkar

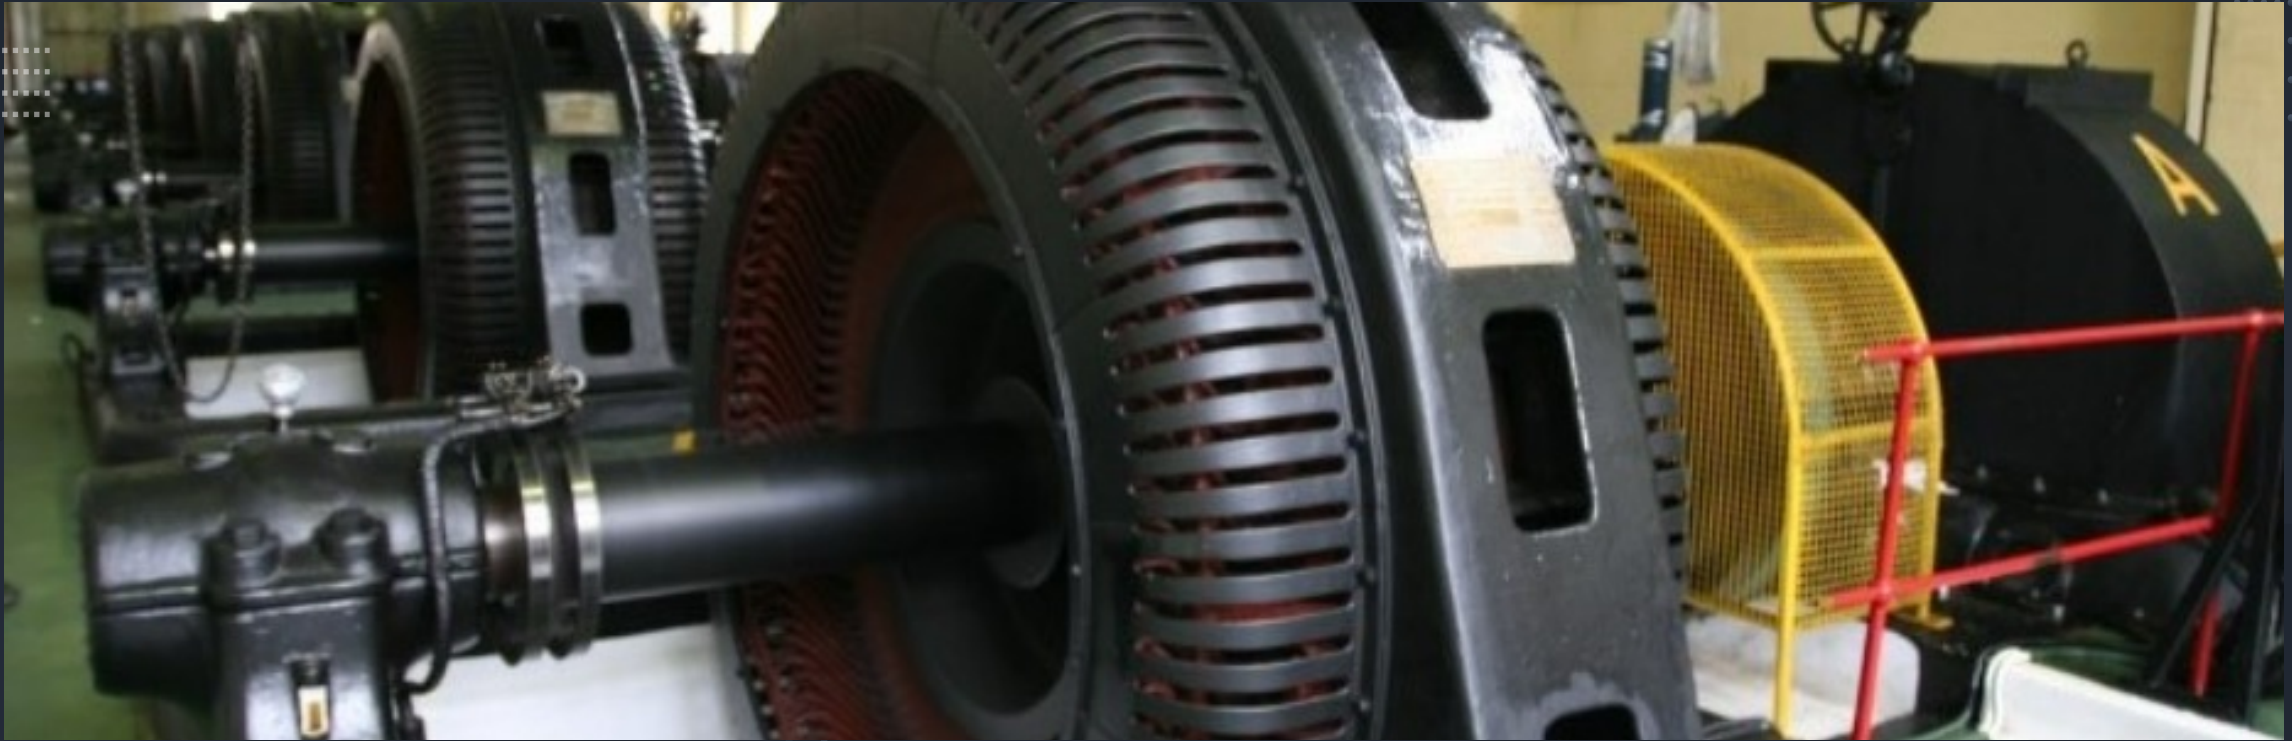

Upcoming Webinars

Using Energy-Economic Models for Climate-Related Financial Impact Analysis

Thursday, 28th April 2022 | 12 PM AEST

Speaker: Dr. Sergey Paltsev

Upcoming Webinar / Seminar

Synchronous services markets: maximising the capacity of existing transmission networks

Wed, 11th May 2022 | Webinar: 5:30 PM - 6:30 PM AEST

In person: 5:15 PM - 7:00PM, at Hydro Tasmania,
4 Elizabeth Street, Hobart.

Speaker: Vedran Kovac

Upcoming Webinar / Seminar

Transformation concept for the Electric Energy
Industry

Wed, 18th May 2022 | Webinar: 4:30 PM - 5:30 PM
AWST

In person: 4:00 PM - 6:00PM, at Engineers Australia
WA - 712 Murray St, West Perth WA 6005

Speaker: Doug Aberle
